Re: Request for Financial Management and Oversight Board for Puerto Rico Records

Dear Ms. Minet:

The Financial Oversight and Management Board for Puerto Rico (the "Oversight Board" or the "Board") has received your request for Board records. We thank you for your interest in obtaining information regarding the Board's efforts to address Puerto Rico's fiscal crisis.

Transparency is a guiding principle behind the activities of the Board. The Board's bylaws provide that public disclosure of relevant documents will be made on a timely basis, including all contracts executed by the Board. In order to facilitate this process, the Board has established a website where its public disclosures will be posted: juntasupervision.pr.gov.

I encourage you to visit the Board's website and view the materials published there. Included in those materials are contracts entered into by the Board as well as financial disclosures made by the Board's members and its Executive Director.

Sincerely,

Jaime A. El Koury
General Counsel
